

Project Design Phase-II Data Flow Diagram & User Stories

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
		USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
		USN-3	As a user, I can register for the application through Facebook	I can register & access the dashboard with Facebook Login	Low	Sprint-2
		USN-4	As a user, I can register for the application through Gmail		Medium	Sprint-1
	Login	USN-5	As a user, I can log into the application by entering email & password		High	Sprint-1
	Dashboard					
Customer (Web user)			As a dog enthusiast, I want to upload an image of a dog and receive accurate breed identification to learn more about the specific breed.		High	Sprint-1
Customer Care Executive			As a Customer Care Executive, I want a user-friendly dog breed identification system, so I can quickly assist customers by accurately identifying the breeds of dogs based on images they provide.		High	Sprint-1
Administrator			As an administrator, I need access to a dashboard where I can view system usage statistics, monitor performance metrics, and manage user accounts and permissions.		High	Sprint-2
